SUBJECT: Annual National Environmental Policy Act Planning Summary for
2009, SLAC Site Office

The purpose of this memorandum is to state that SLAC Site Office has reviewed ongoing and planned activities at SLAC National Accelerator Laboratory and has determined that there is one NEPA Environmental Assessment (EA) planned within the next 12 months. This EA will cover activities planned for the Linac Coherent Light Source Undulator 2 project and is identified in the attached list of EAs planned as part of the Annual NEPA Planning Summary for 2009. We do not anticipate any activities to be conducted that will require an Environmental Impact Statement be prepared over the next 24 months.

This memorandum is in accordance with the June 1994 Secretarial Policy Statement on National Environmental Policy Act (NEPA) and Department of Energy Order 451.1B, and as requested by the DOE Oak Ridge Office NEPA Compliance Officer on December 9, 2008. This memorandum will be available for public review and placed in the public reading room located in Building 84 at SLAC.
